(Please Specify) _____

Last Date Foaled (or if currently in-foal): _____

A copy of the mare's registration papers is due with this contract.

1. This mare is booked by name and the booking is valid to this mare only.
2. The Mare's health condition is the responsibility of the Purchaser. The Purchaser will ensure that the mare is in sound breeding condition. We recommend that purchaser's vet examines and assesses your mare's breeding soundness. Your mare should have a negative uterine culture prior to breeding (but is not required). We expect you to follow your veterinarian's recommendation(s).
3. We strongly recommend that the above named mare be checked for pregnancy and ultra-sounded by a veterinarian 14-17 days post breeding. The mare should be re-checked between 28-35 days for pregnancy. The purchaser (Mare owner) must inform Eventyre Farms of the above named mare's pregnancy status by day 35.
4. The full stud fee of \$ _____ plus GST, must be received before any collection or delivery of semen occurs. Please make the payments via money order, e-mail transfer, or bank draft.
5. The semen from the above named stallion is to be used only on the mare named in this contract.
6. The purchaser understands that the stallion will not always be available for collection. Frozen semen will be used in lieu of collection during those times that the stallion is unavailable.
7. The Purchaser assumes all responsibility for the condition of the mare and shall bear all risk of loss or damage to the mare whether by death, disease, injury, infection or otherwise, and by any cause whatever, including inappropriate, untimely, or negligent insemination or failure of insemination and therefore releases, discharges, indemnifies and hold harmless Eventyre Farms and it's owners, it's employees and agents from any and all damages associated therewith.
8. The Purchaser agrees to notify Eventyre Farms if the breeding is to be an embryo transfer from the above named mare using semen from an Eventyre Farms stallion.
9. Eventyre Farms does not offer a live foal guarantee. If "fresh semen" was used during the breeding process, and the mare failed to conceive, the Purchaser is entitled to a re-breeding within the same year (breeding season) using one dose frozen semen.

The Purchaser may chose the option of purchasing two frozen breeding doses, instead of the fresh semen option. With this option, you will receive two breeding doses of the Eventyre stallion's frozen semen, in the first shipment. This is to be used over two separate breeding cycles. Ideally, the named mare becomes pregnant, or has a successful embryo transfer, after using the first frozen breeding dose. In that case, arrangements must be made by the Purchaser to either, return the second dose, or purchase an additional breeding contract. There is no refund on frozen semen bought by the Purchaser regardless of the outcome of the mare's pregnancy.

- 10. All veterinary fees are the responsibility of the Purchaser.
- 11. All fees must be paid prior to any semen being delivered.
- 12. This contract shall not be transferred.
- 13. The laws of the Province of Alberta, Canada shall govern the terms of this agreement.
